

Linking Your Yellow Pass to My Disney Experience

1 Create profile in My Disney Experience

- As the Primary Passholder, you may link your Yellow Pass and Guest Passes to your My Disney Experience profile to manage your plans in advance.
- On your computer or mobile device, go to MyDisneyExperience.com.
- Click “Sign In” if you already have an account on the Disney family of websites, including Disney.com, ABC.com, ESPN.com or Disneyfamily.com, you can use your login information to create your profile. Otherwise, click “Create a Profile” and follow the prompts onscreen.

2 Link your passes to My Disney Experience

- On the My Disney Experience menu, click “My Profile”
→ “Memberships & Passes” and click “Add a Main Entrance Pass.”
- Enter the 12-digit ID number on the back of your Pass, in the bottom-right corner.

- All of your passes will be linked to your profile at once, including your Guest Passes.

3 Make a Theme Park Reservation

- First, check blockoutdates.disney.com to find a blue date that you would like to visit a theme park.
- Next, on the “Create Your Party” screen, select the name of the Main Entrance Passholder and/or each necessary Guest Pass. Then select the date on the reservation calendar that matches a blue date on blockoutdates.disney.com.
- Then select a park (Please note, visiting more than one theme park per day is temporarily unavailable at the Walt Disney World® Resort due to attendance limitations).
 - If Main Entrance Pass displays as “Just a moment, We Can't Find Their Tickets, Invalid Admission”, this indicates that selected ticket(s) is blocked at this park.

- Finally, select arrival time, and review & confirm. Park reservations can be viewed under the Daily Itinerary on the My Plans Page on MyDisneyExperience.com or the My Disney Experience mobile app.
- Enjoy the Magic: During your scheduled arrival window, head to the park’s Main Entrance. Use your Main Entrance Pass for park entry that was used to make the Disney Park Pass reservation. This will redeem your park reservation.

4 USE A MAGICBAND AS YOUR MAIN ENTRANCE PASS

- Personal MagicBands can be used interchangeably with your Pass for theme park admission redemption, once your Pass and MagicBand are linked to your My Disney Experience profile.
- MagicBands cannot be used with your Guest Passes, due to the unique nature of this media type. Your Guests must each use a Guest Pass to enter the parks and redeem theme park reservations made in advance via My Disney Experience.
- Please bring your government-issued photo ID when visiting Disney Theme Parks.

If you need further assistance, call 407-939-4357 option 5.
